

A US citizen should only be spied upon with the approval of a federal judge. I do not want to live in a police state. The founding fathers would roll over in their graves if they knew what was being discussed. Allowing for easy surveillance opens the door for gestapo type tactics. It would cripple what makes this country great, freedom to think and say just about whatever a person could want. not yet naturalized persons are not protected fully by the constitution and are possibly a threat so spying on them is fine as they are under investigation and review until they become naturalized anyway. Do not aide in the degradation of our constitution and rights.
